

Bonus Supplement!

If you (or someone you love) has Carpal Tunnel... then this article could be life-changing for you. Few people realize that Chiropractic Care is now the #1 treatment for carpal tunnel relief, without surgery...

Dear Patient,

Welcome to this special **Bonus Supplement** included with our monthly newsletter. On the bonus insert I focus on little-known benefits of chiropractic. This month it's about... **how chiropractic is the #1 non-surgical treatment for Carpal Tunnel.**

Did you know that according to the U.S. Bureau of Labor and Statistics, Carpal Tunnel Syndrome is now the most **common reported medical problem** in the workplace? In fact Carpal Tunnel Syndrome accounts for nearly 60% of work related injuries. The American Academy of Orthopedic Surgeons estimate that carpal tunnel costs **\$27 billion annually** in medical treatment and lost income!

Carpal Tunnel affects the nerve function of the hand. Do you have any of the following symptoms?

- (1) Aching of the hands and wrists?
- (2) Hands are numb and tingly?
- (3) Trouble holding objects?
- (4) Less than normal hand strength?

If you said yes to any of the above, you might have symptoms of Carpal Tunnel Syndrome. It is most common among women between the ages of 40 to 60, but affects men and women of all ages and occupations. Chiropractic care offers exciting opportunities to treat Carpal Tunnel Syndrome without the use of surgery. A new study shows chiropractic to be equally effective as surgery, without the associated costs, downtime, or side effects. Surgery should be your LAST resort, not the first. Plus get this: in 80% of the cases where surgery has been completed, the symptoms have returned within two years! Yikes. This is why more and more American workers are seeking out chiropractic as their first line of defense against carpal tunnel syndrome.

If you (or a loved one) has been diagnosed with Carpal Tunnel and would like to discover the non-surgical options available, I hope you give serious consideration to the all-natural non-surgical *chiropractic solutions to carpal tunnel*.
